

PRODUCTS TO GROW WITH

BLOOM & FRUIT™

6-19-0

FOR THE BLOOMING AND FRUITING STAGES OF PLANTS

FOR COMMERCIAL USE ONLY

GUARANTEED ANALYSIS:

Total Nitrogen (N)..... 6.0%

6.0% Ammoniacal Nitrogen

Available Phosphate (P205)..... 19.0%

Soluble Potash (K2O)..... 0.0%

Derived from: Orthophosphoric Acid and Ammonium Hydroxide.
F001142

****WARNING: Slightly Acidic Material. Wear rubber gloves and splash proof goggles.**

DIRECTIONS FOR USE:

FOLIAR:

ROW CROPS: Mix 1 qt BLOOM & FRUIT with sufficient water to cover, per acre. Mist tops and bottoms of leaves. Moisten only to the point of run-off. Works well with 1-2 qt(s) SUPER 6-14-6 mixed with solution. (USE MINIMUM OF 5 GALLONS OF WATER.)

TREE CROPS: Apply 2 qts. BLOOM & FRUIT with sufficient water to cover per acre. Moisten both sides of the leaves only to the point of run-off. Works well with SUPER 6-14-6

***Highly concentrated DO NOT over apply. *** To ensure compatibility with foreign spray mixes, a jar compatibility test is recommended before mixing with other products other than water in the tank. Always fill tank with water first, then begin applying CROPMASTER products while tank is circulating.
*NEVER MIX CONCENTRATES DIRECTLY TOGETHER *

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.

When a plant is in the growth stage it is said to be "Anionic". At some point, it becomes necessary for the plant to divert the energy it uses to grow into producing blooms, and eventually fruit. At that point the plant is said to be "Cationic". As a rule, large amounts of nitrogen are required for the anionic stage and phosphate becomes important for the cationic stage. Hence UAS has developed this product a specially designed high phosphate concentrate, formulated to encourage the plant, tree, or vegetable to produce blossoms, then after this step acts as a binder to help fruit set stronger on the stem. To this high phosphate formula we went further by adding additional ingredients to come up with a superior plant blossom and fruiting product.

Storage: Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

PRECAUTIONS

Avoid getting in eyes or on skin. The use of side shield safety glasses and gloves is recommended. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, remove contaminated clothing. Wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water for 15 minutes. If irritation persists, obtain medical attention. See MSDS for further information.

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the users responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test is recommended.

CONDITIONS OF SALE

UAS of America Inc. warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for purposes stated on the label when used in accordance with directions under normal use conditions. Crop Injury, product use ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of UAS of America Inc. In no case shall UAS of America Inc. or it's be liable for consequential, special or indirect damages resulting from the use, handling, or shipping of this product. All such risk shall be assumed by the buyer /end user. UAS of America Inc. makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.

CAUTION: KEEP OUT OF REACH OF CHILDREN
