

"Products to grow with"

GUARANTEED ANALYSIS:

Boron (B)10.00%
10.00% Chelated Boron (B)
Derived from: Boric Acid

WARNING

Overapplication or excessive use of boron, or use on crops other than those listed, can result in boron toxicity. This may cause foliar damage or serious crop injury.

DIRECTIONS FOR USE:

Vegetables, Cucurbits, Field and Row Crops:
Apply 1 to 2 pt(s) per acre in 50 gls of water per acre as a directed foliar spray when plants are 8 to 12 inches in height. Aerial applications use a minimum of 5 gls of water per acre. May be applied through center pivot irrigation system.

Deciduous Fruit and Nut Trees, Grapes, Olives, and Citrus:
Apply 1 to 2 pt(s) per acre. Aerial applications use a minimum of 8 gls of water per acre. Dilute or concentrate sprays use a minimum of 30 gls of water per acre.

***Highly concentrated DO NOT over apply. *** To ensure compatibility with foreign spray mixes, a jar compatibility test is recommended before mixing with other products other than water in the tank. Always fill tank with water first, then begin applying CROPMASTER products while tank is circulating. "NEVER MIX CONCENTRATES DIRECTLY TOGETHER "

Boron 10%™

FOR COMMERCIAL USE ONLY

PRECAUTIONS

Avoid getting in eyes or on skin. The use of side shield safety glasses and gloves is recommended. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, remove contaminated clothing. Wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water for 15 minutes. If irritation persists, obtain medical attention. See MSDS for further information.

DISCLAIMERS

Cropmaster Boron 10% will be influenced by differences in plant varieties, soil and environmental conditions. Should be applied under conditions of optimum plant growth. Optimum conditions are defined as adequate humidity, moderate temperatures and adequate soil moisture. Optimum conditions for most crops generally occur early morning or late evening hours.

NOTE 1: Recommended before use:

For all crops, the rate of water used should be sufficient for thorough coverage. Coverage is dependent on proper droplet size and pressure. Repeat applications may be beneficial.

Note 2: Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

CONDITIONS OF SALE
