

Micro Boost®

Designed for soil and foliar application, to prevent and correct pre-existing deficiencies of nutrients listed. Apply as deficiencies are indicated by plant leaf and soil testing.

Micro Boost® is our most common multi variety nutrient we have that contains a complete list of essential nutrients for all crops and grasses.

Micro Boost® is carefully designed to give you the right combination of micro nutrients to use as a preventative all season long. Even if you do not have any deficiencies use Micro Boost® in your program to prevent any deficiencies from occurring and to increase pound solids in your harvest. The more Micro Boost® you use, the more pound solids and the higher quality you will see in your harvest.

We Provide a Certified Organic registered version also.

STORAGE

Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.

CAUTIONS

Because of the nature of KTS phosphate care should be taken when mixing with humic acid and or Calcium products. Always do a jar compatibility test before mixing any two products other than water in your tanks.

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the user's responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.
