

SUPER 16-4-8™

A Bio Stimulated, Bio Active Hot mix Liquid NPK. SUPER 16-4-8™ is made from high grade, high quality, and natural ingredients making this liquid NPK very pure and clean. Plants will utilize more readily and quicker than comparable water soluble NPK. SUPER 16-4-8™ is tipped to give your plant and turf faster growth on top while providing just enough energy for roots and thickness.

SUPER 16-4-8™ should be used two weeks after planting up until the flower buds have formed and all season round for turf.

STORAGE

Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.

CAUTIONS

Because of the nature of high phosphate care should be taken when mixing with humic acid and or Calcium products. Always do a jar compatibility test before mixing any two products other than water in your tanks.

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the user's responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.

**Ingestion: If patient is conscious, give large quantities of water. Do not induce vomiting. Call physician.*

"COMMERCIAL USE ONLY"

COMPATIBILITY

A jar compatibility test is recommended before mixing with any product other than water in the tank to insure compatibility with foreign spray mixes and before mixing with other products other than water in the tank.

Not compatible with high concentrated Calcium, carbon or low pH mixes.
