

## SuperHume® /Seaweed

A concentrated form of liquefied organic Carbon derived from the highest quality humate source, mixed together with Ascophyllum Nodosum Seaweed harvested in the Icy North Atlantic.

Use to bio activate soil and foliar apply to help stress point of plant, increase brix and efficiency of fertilizer intake.

### STORAGE

Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

**Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.**

### CAUTIONS

Because of the nature of Humic and Fulvic acid, care should be taken when mixing with high Calcium and phosphate liquid products. Always do a jar compatibility test before mixing any two products other than water in your tanks.

### DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the user's responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test is recommended. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.

*\*Ingestion: If patient is conscious, give large quantities of water. Do not induce vomiting. Call physician.*

### GUARANTEED MINIMUM ANALYSIS

Soil Amending Ingredients:	
Seaweed	4.000%
Non-Plant Food Ingredient:	
Humic/ Fulvic Acid	8.500%

Derived from: Leonardite Shale, Ascophyllum Nodosum Seaweed.

### COMPATIBILITY

A jar compatibility test is recommended before mixing with any product other than water in the tank to insure compatibility with foreign spray mixes.

Mix in tank last and introduce slowly specially with concentrated Calcium, high phosphate. Must be kept at low concentration to avoid complications.

### APPLICATION

#### SOIL BIOACTIVATION:

Lawn and garden areas: Apply 5-7 oz per 1000 sq. ft. with water into soil.

*2 times yearly in soil will Maintain and feed beneficial soil microbes, improve plant health, help increase energy and brix levels.*

#### FOLIAR FEEDING:

Apply at 2 oz. per 1000 sq. ft. Do not spray directly on to blooms due to possible discoloration. Apply with every Fertigation application. weeks for optimum results.

*Applying with fertigation program will increase plant tolerance levels and increase nutrient absorption.*

### WARRANTY

BUYER ASSUMES ALL RESPONSIBILITY FOR USE, STORAGE, HANDLING AND DISPOSAL OF THIS PRODUCT WHEN NOT IN ACCORDANCE WITH LABEL DIRECTIONS. UAS of AMERICA, INC AND ITS DISTRIBUTOR'S LIMIT OF WARRANTY EXTENDS ONLY TO REPLACEMENT OF DEFECTIVE PRODUCT.
